

HOW TO ACCESS AND UNDERSTAND THE APPR TABLE

Step 1:

1. To move to the APPR table <type> N in the ACTION field and <type> APPR in the TABLEID and <press> the **Enter** key.
- This table provides a project to date view of a certain Budget Fiscal Year and Fund.

Step 2:

<Type> in S
here.

Line 1 Column 10

Once the money has been appropriated, which was done in the above step then the money is apportioned.

- The **YTD APPOR AMT** is the amount that has been apportioned in this fund. The **UNAPPOR APPR AMT** is the difference between what is appropriated, ORIGINAL APPR AMT, and the apportionment, YTD APPOR AMT.
- **UNLIQ OBLG AMT** are orders placed, contracts awarded, services received and similar transaction that have been recorded in the Financial System but have yet to be paid or have a outstanding balance. Once a year has expired, Sept 30th, 2005 BFY 2005 will expire, there are 5 years after that before a year is canceled. Before the cancellation date, the UNLIQ OBLIG AMT must be at zero balance.
- **EXPENDED AMT** are transactions that the vendor has satisfied enough of the requirements to make payment. The transaction has either already been paid by treasury or soon will be paid.
- By adding these Unliquidated Oblg Amt and Expended Amt together you have the total amount of Obligations for the agency in this fund. This amount doesn't include commitments or planned expenditures.

Line 1 Column 10

- The **YTD ALLOC AMT** is the amount that has been allocated to each division. In this example the amount is less than what is available in the apportionment.
- The **APPORTIONMENT AVAIL AMT** is the amount of the apportionment, YTD APPOR AMT, still available after subtracting the unliquidated obligations and the expended amount.
- The **APPROPRIATION AVAIL AMT** is the amount still available of the appropriation, ORIGINAL APPR AMT after subtracting the Unliquidated obligations and the expended amount.

Line 1 Column 10

- **ACTUAL REIM AMT** is the amount that has actually been collected. This doesn't include outstanding bills. This represents actual cash posted to APHIS.
- **EST REIM AMT** is the amount that the divisions estimate to collect for this Budget Fiscal Year. Their collections must equal expenditures by the end of the five year adjustment period. Government can't spend more then it collects.
